### Charger / Body Panels / Frame Rails, Rocker Panels

Picture	Product name	Description	SKU	CAD
	1966-1970 Floor Wiring Cover Set	Reproduction floor wiring covers for various 1966-70 Mopar B-Body models. These are the covers that run next to the rocker panel, which can commonly break when being removed due to rust damage.	CRICMM1619	235.18
	1966-1970 Front Frame Rail - LH	Made from quality heavy gauge steel, each piece is built to original OE specs . Don't get stuck with low quality cheap replacements parts, buy the best. Shock tower included with rail.Fits: 1966-1970 B-Body cars	CRAM391-1466-L	1017.58
	1966-1970 Front Frame Rail - RH	Made from quality heavy gauge steel, each piece is built to original OE specs . Don't get stuck with low quality cheap replacements parts, buy the best. Shock tower included with rail.Fits: 1966-1970 B-Body cars	CRAM391-1466-R	1017.58
<b>Early Birds Order Hotline: 1 800 463 0546</b>				
	1966-1970 Inner Rocker Panel - LH	Often rusted, these important structural pieces mate to the front and rear (where applicable) floor pans and the outer rocker panels.Fits: 1966-1970 B-Body cars	CRAM440-1466-L	383.98
	1966-1970 Inner Rocker Panel - RH	Often rusted, these important structural pieces mate to the front and rear (where applicable) floor pans and the outer rocker panels.Fits: 1966-1970 B-Body cars	CRAM440-1466-R	383.98
	1966-1970 Starter Splash Shield	Many times missing and almost always rusted and in need of repair. æAttaches to the LH front frame rail on cars equipped with automatic transmissions. Our starter splash shield is a faithful reproduction of the original part. Made from heavy gauge sheet metal. Each piece features correct as original rubber seal. æ	CRAM387-1466	191.98
	1966-1970 Torsion Bar Crossmember	It is important this item be in good shape as it is a major component on the front of the body. Has the same metal thickness as OE and the area holding the torsion bars will accept stock size bars as original.Fits: 1966-1970 B-Body cars	CRAM395-1466	748.78
	1966-1971 Hemi Frame Mounts - PR	Pair of reproduction motor frame mounts for all 1966-71 Mopar	CRICMD4069	470.38

models fitted with a HEMI engine. Keep that elephant under the hood with a sturdy new set of engine frame mounts.

1966-1972 Frame Rail Caps (Rear)

Repair your frame rail rust economically with Safe-T Caps in full length or partial lengths. Full length cap repairs the frame rail from the forward leaf spring mount to the rear cross member. Front section cap repairs the frame from the forward leaf spring mount to above the rear axle, while the rear section repairs the frame from the shock cross member to the rear cross member. All caps are made in the USA  
**Call for multiple colours, styles or patterns or choose online**

CRICMM8041

396.46

1966-1972 Subframe T-Cap

The ends of the torsion bar cross members often rust out next to the inner rocker. These T-caps reinforce the weakened intersection on the underside. Made in the USA  
**Call for multiple colours, styles or patterns or choose online**

CRICMM8061

278.86

1966-1972 Torque Boxes

At the factory, torque boxes were known as "Hemi boxes" or "double floor plates". These resist torsional flex, and when combined with subframe connectors, add 20%+ rigidity to the framework. These are not factory-stamped pieces for show car points, these are heavy-duty, performance-oriented structural enhancements. Made in the USA  
**Call for multiple colours, styles or patterns or choose online**

CRICMM8016

144.46

1966-1974 Frame Rail Caps (Front)

Repair your frame rail rust economically with Safe-T Caps in full length or partial lengths. Full length cap repairs the frame rail from the radiator core support to the torsion bar cross member. Front section cap repairs the frame from the core support to the firewall, while the rear section repairs the frame from the firewall to the torsion bar cross member. All caps are made in the USA.  
**Call for multiple colours, styles or patterns or choose online**
