Graining On Deflector Blades Correct Chrome Plated Housing
Felt Washer Preinstalled Old air conditioning deflectors are an eyesore to any fresh 1971-1972 Chevelle interior. A/C deflector plastics fade over time, chrome plating peels, and sometimes the vent blades are simply broken or missing. Ecklers Chevelle & Malibu is proud to offer these new air conditioning deflectors made to OE specs and vacuum chrome metallized plated just like originals. Replacement is easy and fast with simple hand tools and minimal mechanical know how. Now is the time to replace those old worn 1971-1972 Chevelle AC deflectors and bring that interior back to life

1971-1972 Vent Tube Deflector Assembly (Grained) - PR

These are the air deflectors that have the duct outlet extensions attached for the air distribution hoses that go under the dash. The 1970 (smooth exterior surface) and 1971-72 (grained exterior surface) versions are available. They are sold in pairs only, right and left.
