## El Camino / Paint and Dye

Picture	Product name	Description	SKU	CAD
	1965 Blue Dye	Our Vinyl Dyes are manufactured in London England, they are custom mixed to vinyl samples that have been supplied to us by our Interior Manufacturer. Solid colors are applied in single stage application. The Metallic colors are a 2 stage application process. We supply the base color and a top coat so that the correct Metallic style factor finish will be your end result. If you are not sure of your interior color please supply the year of your vehicle. Unlike other so called Vinyl Dyes on the market that just "paint over" your existing color, our Dyes are formulated to Impregnate the vinyl for a long lasting finish that will not rub off. One spray can will be enough to do one seat or 2 door panels provided the vinyl's are a similar color. If you are changing colors you will need approximately 50% more dye.	ELDyeZ71	34.74
	1965 Red Dye	Our Vinyl Dyes are manufactured in London England, they are custom mixed to vinyl samples that have been supplied to us by our Interior Manufacturer. Solid colors are applied in single stage application. The Metallic colors are a 2 stage application process. Our Vinyl Dyes are manufactured in London England, they are custom mixed to vinyl samples that have been supplied to us by our Interior Manufacturer. Solid colors are applied in single stage application. The Metallic colors are a 2 stage application process. We supply the base color and a top coat so that the correct Metallic style factor finish will be your end result. If you are not sure of your interior color please supply the year of your vehicle. Unlike other so called Vinyl Dyes on the market that just "paint over" your existing color, our Dyes are formulated to Impregnate the vinyl for a long lasting finish that will not rub off. One spray can will be enough to do one seat or 2 door panels provided the vinyl's are a similar color. If you are changing colors you will need approximately 50% more dye.
