	1969 HEADLAMP WASHER DRIP VALVE SOLENOID	Very rare used on 1969 cars only. Commonly used on 1969 Camaro Rally Sport RS or Corvettes, and Impala. This solenoid works in conjunction with the wiper washer pump and motor. It actually bolts to the wiper motor, and the hose connects from the	IMPPZHSS69	287.98

wiper pump to solenoid to the nozzle by the head lamps. When you activate your wiper pump washer, it squirts washer fluid on the headlamps to clean them. We were able to tool up and make a limited quantity of these. These are not hand made or poured plastic nozzles, but a very high quality part. Made with correct white nozzle, black body and silver cad bracket. Because of it being a one year only part, they are very rare

1969 Impala Front Grille (Lower)

Reproduction of the lower grill assembly for 1969 Impala and full size models. Each Injection molded grill is manufactured to exact original specifications featuring silver paint with black accents. For the upper grill use # IC3929895.
